

(e) *Additional OPDIV guidance.* OPDIVs may issue supplemental guidance and requirements for selection and assignment of Program and Project Managers and require additional skills and competencies to meet organizational or mission needs. However, OPDIVs may not reduce the requirements specified in the P/PM Handbook.

301.607-72 Applicability.

(a) The FAC-P/PM certification prerequisites and continuous learning requirements apply to all HHS employees who seek to obtain a FAC-P/PM certification. Although obtaining a FAC-P/PM certification qualifies employees to serve as a Program or Project Manager, it does not ensure their selection or designation as such. (*Note:* Contractors and their employees are not eligible to be certified or to serve as Program or Project Managers.)

(b) Mandatory certification is limited to major and non-major IT and construction capital investment acquisitions. Consistent with OFPP guidance, HHS requires FAC-P/PM Level III certification for Program and Project Managers responsible for major IT and construction capital investments—*i.e.*, those requiring preparation of an OMB Exhibit 300, HHS Form 300, or equivalent. An individual must obtain FAC-P/PM Level III certification within 1 year from the date of being assigned to such a major capital investment. Also, HHS requires that an individual obtain FAC-P/PM Level II or I certification for non-major IT and construction—*i.e.*, tactical or supporting, capital investments, respectively, within 2 years from the date of being assigned to such a non-major capital investment. *See* Appendix A, Federal Acquisition Certification—Program and Project Managers—HHS Projects and Programs with Associated Certification Levels, in the P/PM Handbook for additional information regarding major and non-major IT and construction capital investments. FAC-P/PM certification for other types of investments [e.g., advanced research and development (R & D)] is encouraged, but is not mandatory.

301.607-73 Certification waivers.

(a) Waivers to certification requirements may be approved in certain situations. Waivers for additional time to complete certification requirements are not necessary for the first year following an assignment to a major IT or construction capital investment and for 2 years following an assignment to a non-major capital investment. For waivers beyond those periods (for up to 1 additional year), the HHS Chief Information Officer (CIO) (for IT programs and projects) and the Deputy Assistant Secretary for Facilities Management and Policy (DASFMP) (for construction programs and projects) are delegated authority to approve waiver requests. The HHS CAO is the only individual authorized to approve waiver requests for additional time beyond the initial 1-year waiver period.

(b) Approval of a waiver request does not relieve an individual from meeting the certification requirements. Also, unlike FAC-P/PM certifications, waivers issued by other Federal departments and agencies do not transfer to HHS, since a waiver is agency-specific.

301.607-74 Certification transfers.

(a) HHS recognizes and accepts FAC-P/PM certifications issued by other Federal departments and agencies. In addition, HHS complies with FAI determinations as to which certifications by organizations outside the Federal government are eligible for full or partial consideration under FAC-P/PM. *See* FAI's Web site, and Chapter 3, Federal Acquisition Certification—Program and Project Managers—Application and Certification Procedures, in the P/PM Handbook for additional information.

(b) A certification transfer should not be initiated when an individual, who holds a current FAC-P/PM certification from another Federal department or agency, becomes an HHS employee. Instead, the individual must apply for recertification (which will result in issuance of an HHS certification) at the time the candidate's immediate supervisor performs the bi-annual assessment to determine whether the individual has met the HHS FAC-P/PM CLP requirements.
